

1. I have been a listener of K-LOVE for 7 years. It IS my primary radio station that I listen to at home, work and especially in my car. K-LOVE has provided a sense of security, hope and love in a time when the world provides so much uncertainty and negativity.

2. The effect that the loss of K-LOVE would have on the community would be huge. K-LOVE provides positive listening to ALL family members, especially when there is so much violence and negativity in the world. It is a family friendly radio station so parents do not have to worry about what their children are exposed to. Many, many people have turned their lives around and/or survived hard times because they had something POSITIVE to listen and reach out to that brought them a sense of hope and security.

3. K-LOVE IS of public interest because this world has so much uncertainty since 9-11 and I believe the public is searching for something that will provide them security and encouragement. This commercial-free station operates solely BY THE PUBLIC'S DONATIONS, which alone proves that there is a strong public interest. PLEASE, PLEASE DO NOT TAKE THIS STATION AWAY...IT WILL CREATE A HUGE VOID IN MY LIFE AS WELL AS MANY OTHER AMERICANS.
